

10 NANCY SOLLINGER: Post office Box 992,
11 Beatty, Nevada, 89003. [My comment is as I was 1
12 looking at the map that showed the wells, and I was
13 concerned because my household well was not mentioned
14 on the map, at least I don't think it was there, and
15 was wondering whether the wells that you were
16 planning for the rail alignment and the rail
17 construction would affect my household well.]

18 That was my first comment, then my second
19 comment was [will there be a hotline for us local 2
20 residents to call if all of a sudden our water
21 quality changes or if we have a lot of impact on
22 dust. I live in Sarcobatus Flat, that's where I
23 live, my mailing address is Beatty.]
